## Over 100,000 show for royal event

Between 103,000 and 104,000 persons attended the 46th Annual Poly Royal Friday and Saturday, a Cal Poly official said.

The estimate is based on a vehicle count, said Don McCaleb, public information officers. The figure is on the conservative side, he said.

**PEOPLE MOVING** by hand proved to be a popular game during the New Games Tournament held Saturday on the soccer field. (Daily photo by Vince Becci)

Departments and instructionally-related clubs were judged within their schools, and first place winners were announced Friday. First place winners were judged Saturday in four overall categories: sweepstakes, educational value, theme and originality.

Home Economics Department won the sweepstakes award for its display, "Extra, Extra, Learn All About It." Home Economics is in the School of Human Development and Education.

Graphic Communications' exhibit, "Making the Printed Piece," was judged to be the most educational and the best example of this year's theme, "Our Piece of the Action."

Graphic Communications is within the School of Communicative Arts and Humanities.

Landscape Architecture's display won the award for

originality. Landscape Architecture is in the School of Architecture and Environmental Design.

Other first place winners for schools within the university were:

—School of Business: Accounting Club, "Accounting, Past and Present."

—School of Science and Math: Biology, Beta Beta Beta, "Biology in Action."

—School of Engineering and Technology: Industrial Technology Society, "Where the Action Is."

—School of Agriculture and Natural Resources: Crops Club, "Grade A Fruit: What Does It Take?"

—Division of Social Science: Political Action Club, "Housing Display."

For rodeo results, see page 4. Results from other competitions will appear in later issues.

## 'Uncle Duke' will speak

A journalist caricatured as "Uncle Duke" in the "Doonesbury" comic strip will speak Wednesday at Cal Poly on his adventures practicing what he termed "engaged journalism."

Dr. Hunter S. Thompson, national affairs desk chief for Rolling Stone Magazine, is considered a prime exponent of the writing technique of placing himself into his story.

His talk will begin at 8 p.m. in Chumash Auditorium. Tickets are \$1.50 for students and \$3 for the public, available in advance from the University Union ticket desk.

Thompson also has been a foreign correspondent for the New York Times and New York Herald-Tribune and a contributor to national magazines such as Esquire, The Nation, Playboy and Harper's.

He rode with a motorcycle gang for a year before his first book, "Hells Angels: A Strange and Terrible Saga."

He spent a year on the campaign trail to produce

the best selling "Fear and Loathing: On the Campaign Trail '72."

Another of his best selling book's was "Fear and Loathing in Las Vegas: A Savage Journey into the Heart of the American Dream."

As a journalist, he has covered, in addition to the political stories, such media events as the Super Bowl, the fall of Saigon, the Kentucky Derby, and other world and sporting events.

Dr. Thompson's current two-part Rolling Stone piece is on the recent defeat of former heavyweight boxing champion Muhammad Ali by Leon Spinks.

The 40-year-old writer, a native of Louisville, Kentucky, is at work on a new book to be published in August by Summit, titled "The Great Shark Hunt," consisting of previously unavailable magazine material and a series of new pieces.

Titled, "Fear and Loathing: An Evening with Dr. Hunter S. Thompson, America's Quintessential Outlaw Journalist," his talk at Cal Poly will consist of opening remarks followed by a question-and-answer session.

He is expected to speak about his experiences as a foreign correspondent, "gonzo" journalism, and other aspects of his career. The talk is sponsored by the ASI Speakers Forum.

HUNTER THOMPSON

## Sun homage events scheduled in SLO

At about 6 Wednesday morning, a group of dedicated sun worshippers will arrive at the top of Cadillac Mountain in Maine to pay homage to the fiery mass as it rises over the ocean.

Later in the day, a solar powered automobile race will take place in Los Angeles. President Carter will visit the Solar Energy

Research Institute in Colorado.

These three quite different events are all for the same purpose; to recognize Sun Day, the second annual day officially designated by the Worldwatch Institute to pay homage to the sun, and more specifically, to its potential as an energy source.

The city of San Luis Obispo will join in the nationwide activities with displays and literature about solar energy located in Mission Plaza.

People Generating Energy and Mothers for Peace will be there, along with various solar energy firms, to inform people interested in solar power about the benefits and costs involved.

Dave Batts, a Cal Poly journalism student working as a coordinator for the Environmental Center of San Luis Obispo County, said the displays—which will be featured from 11 a.m. until 1 p.m.—are to "try to generate an awareness of how far solar energy has come."

"Solar power is a rising energy form that will be used widely in the future," he said.

The presentation will include ideas on how to use solar power to heat everything from hot tubs to homes, as well as a miniature solar powered oven and several displays pertaining to industrial use of the sun.

# We're putting a lot of energy into the sun.

Wednesday, May 3rd will be observed around the world as "Sun Day" and PG&E is glad to be taking part.

As fuel resources have become scarce, we've been exploring ways Californians can use the sun's energy. Right now PG&E is involved in over 85 solar projects like those listed here. We're testing solar heating systems in homes, offices, greenhouses and on farms. And many other

projects are planned. We want to help you decide how solar energy may fit into your life.

Solar energy is already heating water, swimming pools and buildings and shows great promise for helping conserve energy. Although practical ways of using the sun to generate electricity are still many years away, we're working on that too. PG&E, in cooperation with others, plans to build a small scale experimental sunlight-to-electricity plant that will produce power by the early 1980's. The estimated construction cost of \$20,000 per kilowatt is about 30 times the cost of building a new hydroelectric plant. But by the end of the century, commercially-proven solar plants could well be providing a portion of your electricity.

If you would like information on solar heating equipment or further directions to a solar demonstration project, just give us a call. And ask for our free

Here are a few examples of solar projects you may want to visit. We'll be there and we hope you will be too.

- Altamira, Hertz Federal Savings 660 Lincoln Way, Open May 3 only, 10-4
- Davis, PG&E Customer Service Office 4th & F Street, Weekdays, 9-5
- Fresno, Solar Energy Fruit Orchards Laramie & Pontano, 2340 McLeanland Open May 3 only, 10-3
- Fullerton, Solar Home 805 Golden Hill Road Open through May 3 only, 10-5
- Sacramento, Solar Home 8411 Country Drive off Bradshaw, south of US 50, Noon-5
- Stockton, Solar Home 1437 Goldenough Way Open May 3, Noon-5
- Troy, Solar Heated Greenhouse 2670 Lammers Road Open May 3 only, Noon to 5
- Vallejo, PG&E Customer Service Office 1 Florida Street Weekdays, beginning May 8, 9-5

# Quiet weekend for police

classifieds

By JOHN SHERMAN  
Daily Staff Writer

Poly Royal weekend was quiet and uneventful, according to both San Luis Obispo police and campus police. Leroy Whitmer, of the campus police, said there were no major incidents on campus. According to Whitmer, there were a couple of minor vandalism reports, several medical calls, and some lost children. But, there were no arrests. "I think we had a bigger crowd this year," said Whitmer. "For this crowd, we had a smooth and nice Poly Royal." Lt. Charles Balwin, of the San Luis Obispo Police Department, reported the weekend was reasonably quiet. He said there were about 15 parties reported last Friday and that the students involved were co-operative and well behaved. Three fraternities, Alpha Sigma, Alpha Tau Omicron and Delta Tau, claim police had approached them before Poly Royal and asked them not to have parties over last weekend.

## Birthday festivities

Walt Disney's Mickey Mouse and the California Association of Future Farmers of America will celebrate their 50th birthdays at Cal Poly. The cartoon character and FFA representatives will cut a birthday cake at a banquet in Chumash Auditorium Sunday at 7 p.m. during the four-day state convention of FFA. More than 1,000 FFA members are expected to attend the convention beginning at 3 p.m. Saturday. State finals competition in 23 judging and agriculture related contests will have 1,500 participants, FFA representatives said. "State Farmer Day" Sunday will be highlighted by a barbecue honoring state farmers at 11:30 a.m. in Poly Grove. Business sessions, election of new officers, selection of state farmer degree recipients and special award programs also are on the agenda of the convention, which has a theme title of "California Golden Harvest."

## Kennedy improves

Cal Poly President Robert E. Kennedy will continue a program of rest and treatment for phlebitis at home for several weeks. Grace Arvidson, Kennedy's administrative assistant, said the president is "continuing to improve" since his release from Sierra Vista Hospital Sunday. Kennedy was admitted to the hospital April 18 after suffering pain from an inflamed vein in his leg and a migraine headache. He is continuing leg exercises as part of his recuperation program at home, Arvidson said.

## Editor applications due

Applications for editor of Mustang Daily for the 1978-79 school year are available in the ASI officers' office. They must be filed by Wednesday. Students enrolled in Journalism 351, photography and news-editorial sections, for fall, winter and spring quarters are eligible to vote for next year's editor. Ballots will be mailed to those students, and they must be returned by Monday, May 8 to Betsy Susman in the Mustang Daily office.

Several students in the Garfield Arms Apartments were also supposedly asked not to hold any parties. According to Balwin, police did not forbid any parties as that was beyond their power, but they were enforcing several ordinances pertaining to the selling of alcohol and noise. When asked if the three fraternities had been asked not to have any parties Balwin replied, "Not to my knowledge." He said police went and informed the group at the Garfield Arms that a liquor license would be necessary if they sold alcohol. The manager of the Garfield Arms confirmed this, and he said the police had been very helpful.

## Siai Siai runs 100 in 10.16, finishes 2nd

By JIM ALVERNAE  
Daily Sports Writer

It's hard to tell how much more the Cal Poly track team can improve. Coach Steve Miller's Mustangs have had one strong performance after another.

At last Saturday's San Jose National Invitational, six Mustangs recorded personal bests, one of which was a school record.

With the conference meet less than two weeks away, Miller is hoping his team isn't using up its best shots.

"The conference meet is of such importance that we can't afford to go into it with too much steam. If we do

we'll have a heck of a time," said Miller.

"We want to get our act together for the conference meet which is the key to our season."

One Mustang who has his act together is Joe Siai Siai. The Nigerian sophomore ran a blazing 10.16 in the 100 meter dash Saturday which is the second fastest clocking this year. Oddly enough Siai Siai placed second to Dwayne Evans who finished in 10.04 while running unattached.

Dan Aldridge and Dave Marlow each recorded personal bests in the 800 meter run. Aldridge placed

third in 1:51.05 while Marlow was fifth in 1:51.55.

Jim Schankel and John Capriotti ran lifetime bests in the 1500 meters. Schankel finished in 3:49.5 while Capriotti crossed the finish line in 3:50.9.

Both of those times qualified the runners for the NCAA Division II national meet although Schankel will probably not run in that event.

Kurt Vonogus scored a personal best and qualified for nationals in the discus with a heave of 165 feet 10 inches.

Vonogus brought Poly's number of Division II national qualifiers to 32

which clearly puts the Mustangs in the running for the national title. In addition, Poly has 8 Division I qualifiers. The Mustangs have set 14 school records this season.

While the bulk of the team was running in San Jose junior Bart Williams was running in the prestigious Drake Relays in Des Moines, Iowa.

Williams was invited to run in the collegiate 400 intermediate hurdles and the open 400 meter dash. He had mixed results in cold, rainy weather.

In the intermediate hurdles on Friday Williams was leading by four or five yards going over the second to last hurdle. Unfortunately he fell going over the last hurdle. Williams had earlier set a Drake Relays record of 50:39 in the prelims.

Saturday he ran a personal best of 46.50 in the 400 meter run while placing third.

This weekend the Mustangs will compete in the West Coast Relays in Fresno.

A MEMBER of the Poly rodeo team tries to take down a calf in the calf roping event. (Photo by Dennis Steers)

## Mustangs clean up at rodeo

Cal Poly's rodeo teams delighted an overflow crowd of some 5,000 fans by notching narrow victories at the Poly Royal Rodeo, April 28-29.

The men's team scored heavily in the saddle bronc riding event, with team captain, Jim Pratt taking first. Mike Mosby nabbed third as Poly rolled up 300 points to edge out the University of Arizona, with 285, for team honors.

Cal State Fresno finished third with 235 points.

Cindy Van Horn paced the women's team by capturing the women's all-around for the second consecutive year. Poly had 575 points to top Central Arizona College, with 560 points and the University of Arizona with 150.

Van Horn won the breakaway event and finished third in goat tying to defeat Barrie Beach of Central Arizona for the all-around title. The men's all-around title went to Jack Paddock of Arizona.

## Spikers wrap up season

The Cal Poly volleyball team's chance for a berth in the Division I Western Regional tournament was crushed last Wednesday when the Mustangs dropped a 14-16, 12-15, 15-13, 10-15 decision to San Diego State at Pepperdine University.

A win would have given the Mustangs a first round match against Pepperdine at the regionals last Saturday. As it was the Waves blitzed through San Diego State in the three straight games on way to the tourney title.

Poly experienced frustrating patterns against the Astors by falling behind at the beginning of each game. In game two, the Mustangs trailed 12-4 but managed to close the gap to 12-13 before losing. In the third game Poly roared back from a 12-7 deficit to win 15-12.

With momentum seemingly on their side the Mustangs promptly fell behind 12-4 in the deciding game. They seemed to be on the rebound while closing the gap to 10-14, but a line violation by Landon Crow

ended Poly's playoff dreams.

As it was the loss ended a fine season for the Mustangs who finished with a 20-5 dual match record, a second straight conference title and yet another state small schools championship.

"I gotta think it was a successful season," said first year coach Mike Wilton. "We hit 31 percent as a team for the season and have two all-conference players returning for next season."

Juniors Gregg Kelly and Landon Crow were all-conference first-team selections. Crow for the second time. The Woodland Hills native was the workhorse of Poly's offense this season. Paul Draper was named to the second team.
